

Retractable Hose Reels

...an ideal solution

Retractable Hose Reels

...an ideal solution

Our spring operated hose reels are a cost effective solution to any vehicle workshop requiring exhaust fume extraction.

The internal ratchet system allows the reel to lock in selected positions for easy operation. To recoil the reel, simply pull the hose to release the ratchet.

Hose reels are available in 650mm, 1000mm and 1250mm widths, to accommodate different hose lengths and are suitable for wall, ceiling or boom-arm mounting. All reels will accept 100mm, 125mm and 150mm high temperature hoses.

FUMEX Ltd can supply a comprehensive range of exhaust nozzles and free-standing nozzles for all different types of vehicle, across all industries. High temperature hosing and hose connection kits are also available.

Retractable Hose Reel (650mm wide)	RE650P254
Hose Connection Kit (100mm dia.)	HOSCON100
