

**FUMEX LTD**

*Servicing*

*Leading The Way To a Healthy Workspace*

## Servicing

**FUMEX** have a team of trained service engineers that operate nationwide ready to service a wide range of extraction systems, covering many different industries. This may be on a one-off or contract basis.

Regular servicing of any extraction system will ensure that, not only does it comply to all current COSHH Regulations, but also operates at it's maximum efficiency.

Many faults can be detected earlier and thus be rectified before causing any further damage to the system.

A well serviced system is an efficient system, keeping you and your employees workspace clean and healthy.

-  Exhaust Extraction Systems
-  Weld Fume Extraction Systems
-  Dust Extraction Systems
-  Solder Fume Extraction Systems
-  Wood Dust Extraction Systems
-  Fan Servicing
-  Centralised Vacuum Units

### ABOVE PICTURE DESCRIPTIONS

- 1) During a fan service, our engineer discovered two pieces of cleaning rag. These were carefully removed, the impeller was then visually inspected for any damage.
- 2) The inlet ducting is then refitted using new fixings.
- 3) All joints are sealed using duct tape.
- 4) Two cleaning rags recovered from the fan housing.
